## September

### 2022- August

### 2023

Number of children who attended an educational visit – **28,231**

Number of children who attended a workshop – **24,522 (86%)**

of teachers rated the support they received from our team on arrival as 5 out of 5 \*

of teachers said that the workshop was relevant to the curriculum studied at school \*

of teachers rated their workshop a 5 out of 5 \*

of teachers said they would return to Magna with another group \*

### Teacher testimonies

“The whole day was incredibly well planned and prepared for us. The workshop was fantastic with the gentleman who led it - very engaging and great activities which we will take back into the classroom as they were easy to do (volcano tasks). The pavilions were exciting to explore and the children had a wonderful day.”

“Magna is a fabulous experience and the workshop was brilliant. Staff were very adaptive and responsive to our pupils needs. The sensory box that was for pupils to explore was a really lovely touch. Our pupils has a great time and I was really impressed with the workshop team.”

“The children loved exploring the different parts of Magna - they learnt lots of information about the steel industry and they were able to explore the centre at their own level. the children had plenty to keep them busy which is always helpful with a lively class! The children LOVED the fire tornado and exploring the water - especially as our school sits next to the local canal. The space that we had for lunch was clean, there were plenty of toilets to use and plenty of staff on hand for support.”
